• **INTRODUCTION**

Hello. First of all, I want to thank you for the trust that you placed and bought. This is what you will find in this book. It is the summary of my long experience with the market. And that there is a secret in a correct analysis of the market. To become a professional trader, but on the contrary, the strategy represents only 10% of this market and it is nothing. The most important thing that you must understand and focus on is psychology and risk management..I know that you will not apply these words, but just try to do that and impressive results will be formed. I hope to be the person who It will change your life for the better, it will be an honor for me and I will be happy about it

1:Why we trade The Algo concept

Why we Trade The Algo Concept

The forex market is the largest market in the world in terms of liquidity and of course there is supply and demand in this market, but what most traders do not know is that the market is not subject to the laws of supply and demand? Why because there are those who manipulate prices? Banks and huge financial institutions in the world do this, so you will not profit because you cannot explain these manipulations and believe that Classic patterns work and all you have to do is apply them, but this is not true because the classical patterns and their logic is based on the fact that they are formed due to supply, demand and the psychology of investors ... It was old, but technology has now developed, And there are ways to store the data of investors and for novice traders. This data is owned by a center bank, which in turn provides it to the Hedge funds and its banking institutions.

When you buy, he will sell, and when you sell, he will buy because he knows in advance where you bought and where you sold, and on this basis, no matter what you try, he will enter Against You Remember, because he simply has something that you don't have, ... and where do you get your LiQuidity I spoke about the forex market because it is the largest market in the world in terms of liquidity, but this talk applies to all other markets

Summary: What have we understood so far why beginner strategies don't work? There are price manipulations, and the reason for these manipulations is liquidity. Why do the laws of supply and demand not work?

☐ **ALGO OBJECTIVE**

- 1. induce traders to take position**
- 2. Create panic and fear to get Traders to think irrationally**
- 3. Hit the stop Losses and clear the orders.force traders into margin trouble and pocket the money**

☐ **LIQUIDITY**

Liquidity is the most important thing in this market. Many Smc traders really believe that they understand what liquidity is. In fact, they don't understand it. Liquidity is what makes the market move, not of supply and demand. Rather, liquidity because this is a market that moves based on price manipulations and to be there Price manipulation in order to obtain liquidity

After we understand why liquidity is important, let's move to the most important stage, which is how do we know where the liquidity is in the chart ? Well first you have to know something. We don't know where the LiQuidity is because we don't have the data that the Center Bank has. We can only expect where liquidity can be found, and there are potential places where liquidity is very large, and probabilistic places where liquidity is weak. You have to know that every top and bottom in a market is liquidity. But to know whether this is important liquidity or not, we must understand that HIGHER TIME FRAME LIQUIDITY is not the same as LOWER TIME FRAME LIQUIDITY because the larger the time frame, the greater the liquidity, and therefore the liquidity is more, and the more we go down to smaller time frames, the more liquidity will be Weak . Therefore, we will divide liquidity and its importance into three types

- MAJOR LIQUIDITY**
- MEDIUM LIQUIDITY**
- MINOR LIQUIDITY**

1. MAJOR LIQUIDITY

PREVIOUS MONTHLY HIGHS AND LOWS

PREVIOUS YEARLY HIGHS AND LOWS

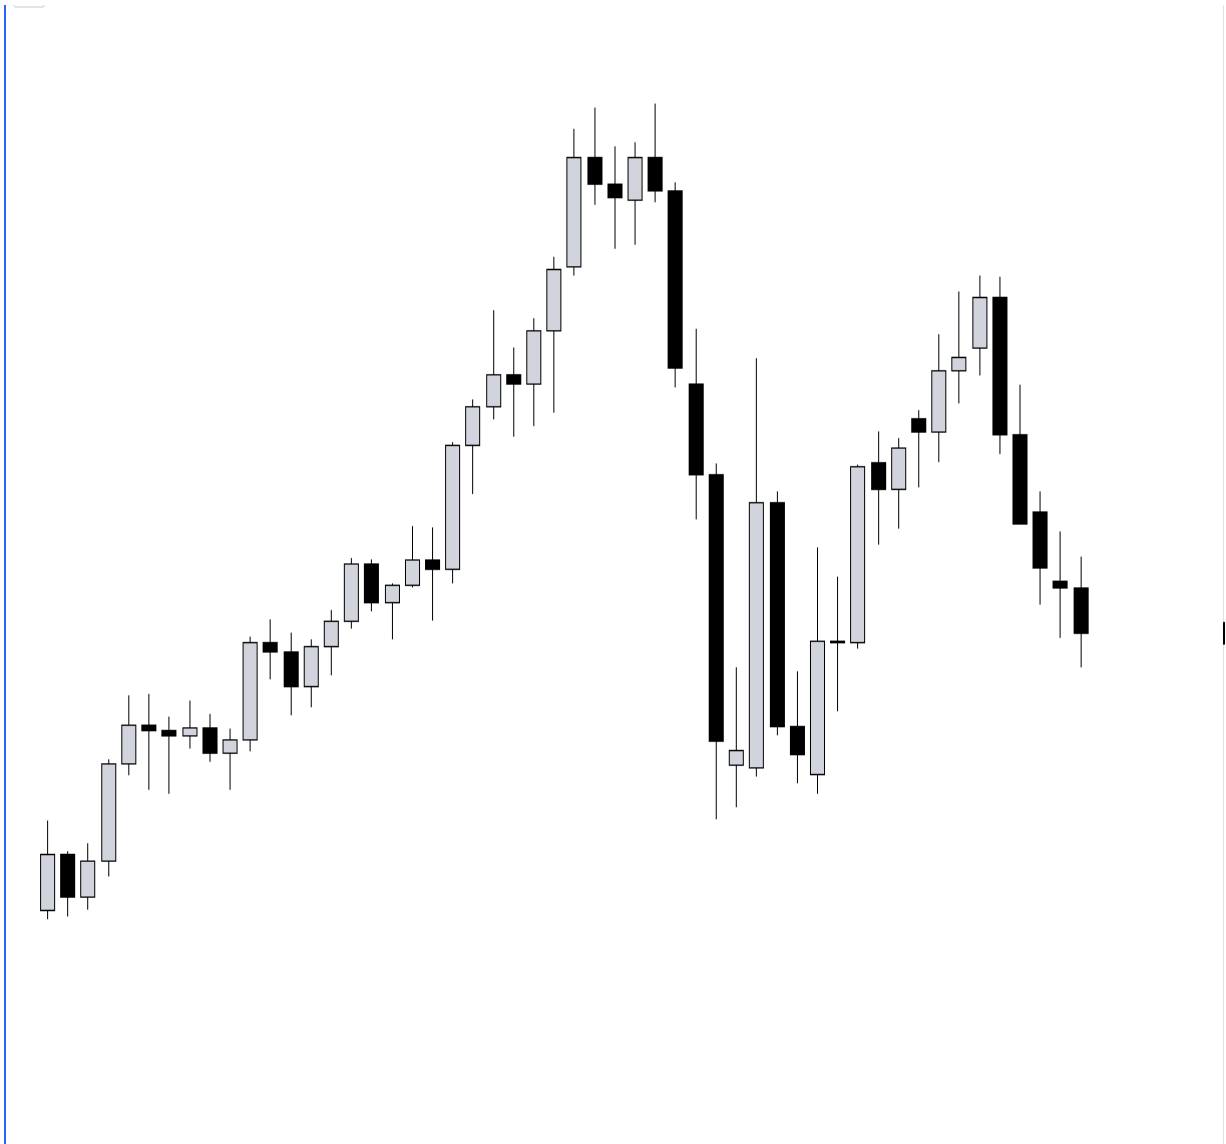

PREVIOUS WEEKLY HIGHS AND LOWS

PREVIOUS DAILY HIGHS AND LOWS

SWING STRUCTURE HIGHS AND LOWS(HTF)

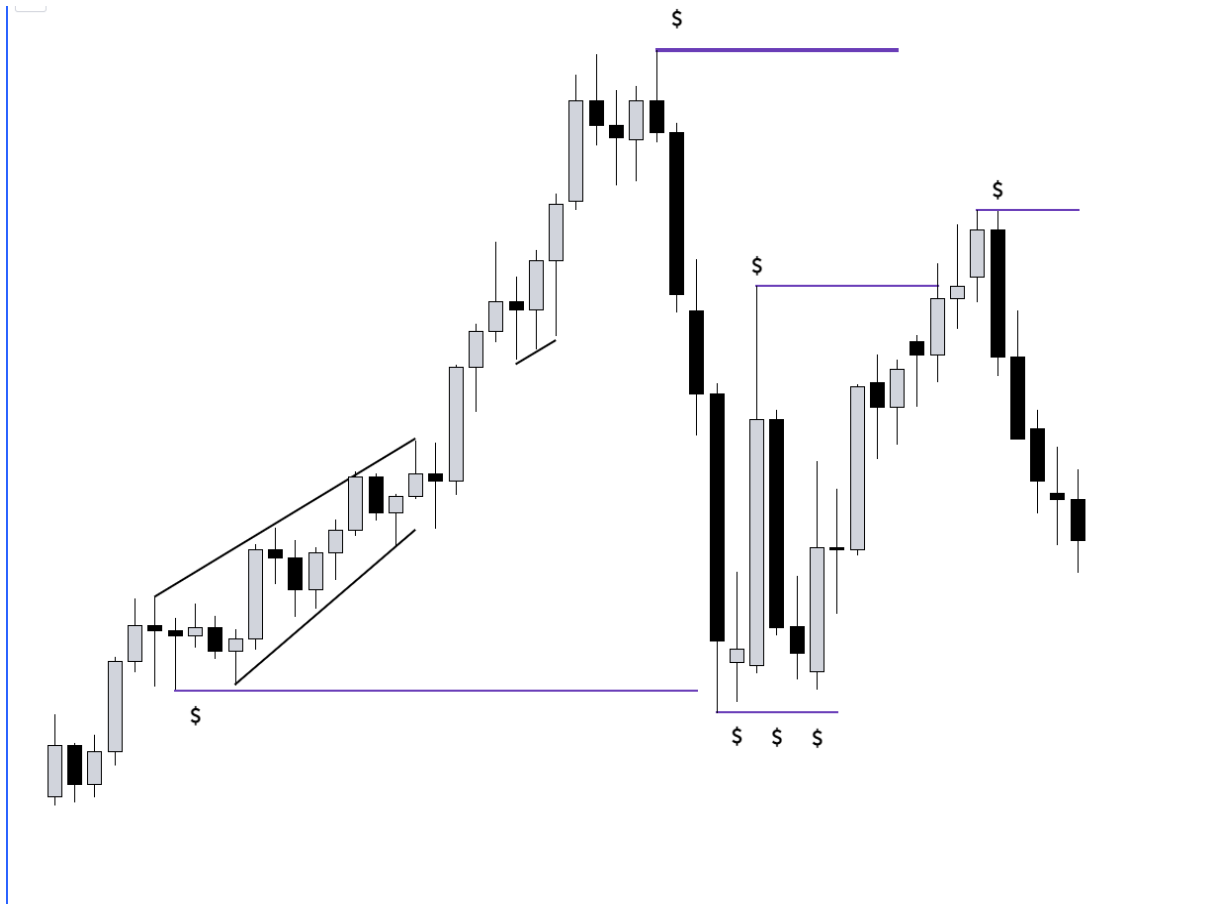

- **Example**

Where Is LiQuidity Here ?

All this highs and Lows Is LiQuidity actually But Where The LiQuidity which Looks More important?

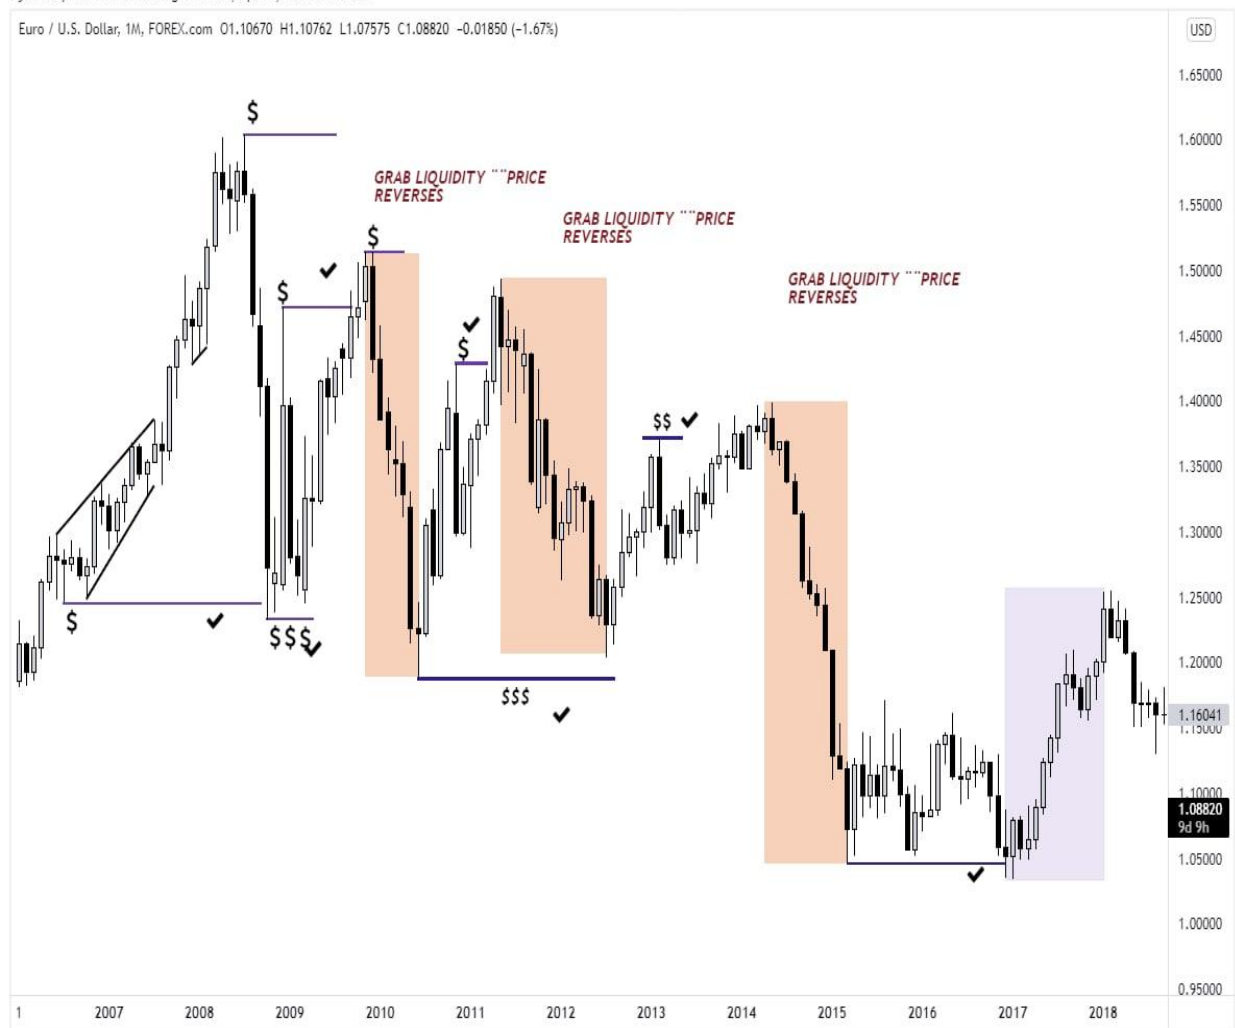

<https://www.tradingview.com/x/OknnXR5N/>

After it takes a liquidity price, it **REVERSES**. Well, it is not that simple. I know that you are wondering how we will know if the price will be reversed or not? Forget this question because you will understand it after you finish reading this book. Now I just want you to pay attention with me and understand that after the price takes important liquidity (important liquidity means that there is a lot of money there is enough for the price to make a big movement because we are in the monthly chart) it will reverse and WE call THAT (**TRAP**)

*U see How much pips After price Grab A
MEDIUM LIQUIDITY*

- **MINOR LIQUIDITY**

The minor Liquidity u can found it on The Minutes (30min..15min..1min Also)

Wee Use This LIQUIDITY ON THE INTRADAY ...SCALPING ALSO AND CONFIRMATION ENTRY
So the difference between liquidity is a difference in movement if you want 20 pips per day ... Minor is enough ... if you want A LOT OF PIPS you need TO FOCUS ON MEDIUM AND MAJOR liquidity

<https://www.tradingview.com/x/CO2vAheg/>

summary: AFTER PRICE GRAB LIQUIDITY THEY NEED TO MOVE So THE ALGO SET THE ORDER AND PRICE REVERSE

HTF LIQUIDITY>LTF LIQUIDITY

MONTHLY LIQUIDITY >WEEKLY LIQUIDITY>

DAILY LIQUIDITY>HOURLY LIQUIDITY> MINUTES LIQUIDITY

INDUCEMENT

INDUCEMENT IS JUST A LIQUIDITY. (CLOSE TO An OB)

• Daily Cycle

So what Happens in A typical Day

3 session: ASIA > LONDON > NEW YORK

accumulation the initial high and the Low of the day are set

Trap False move out of the Asia Range against the Real intended move

Trend move real move Form THE (HIGH OF THE DAY)

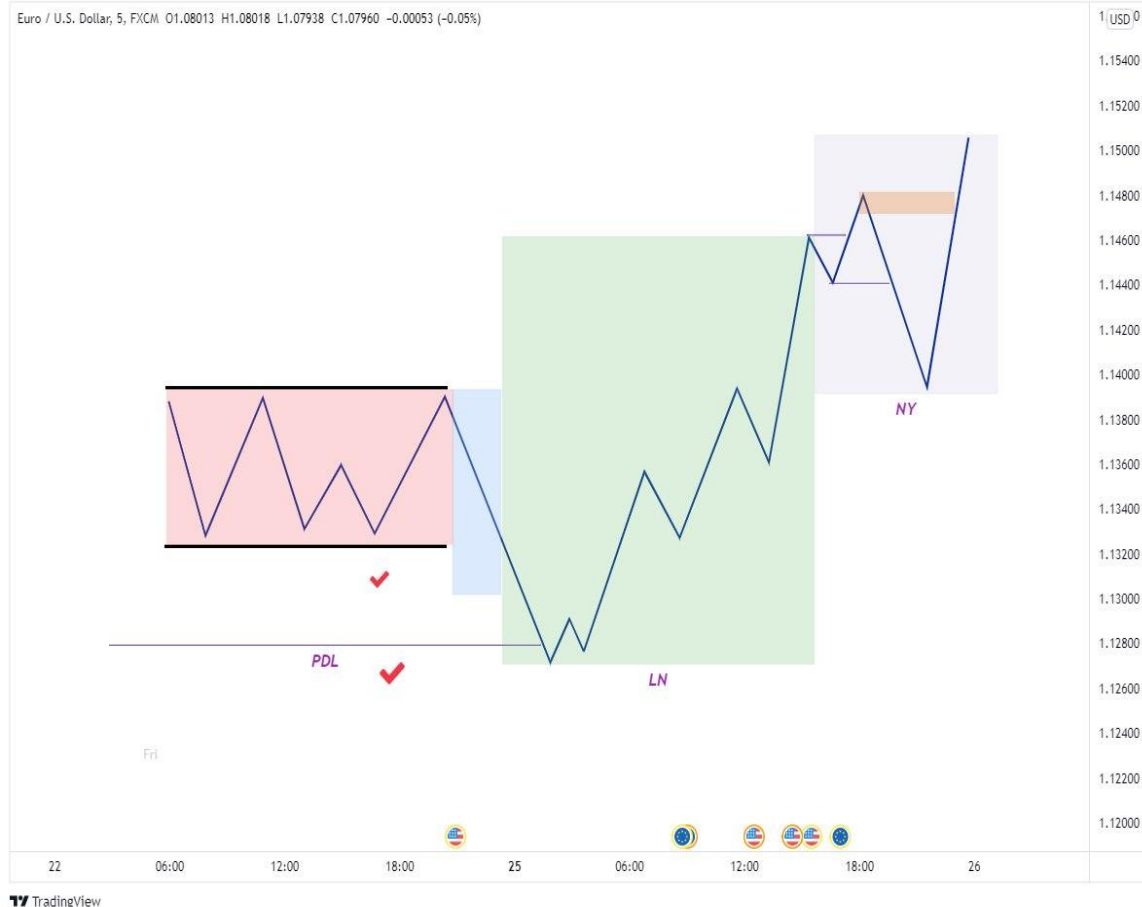

End of the day Reversal (close of the day)

ASIA TRAP One of the most important things. In the concepts of liquidity, especially for intraday traders...

THE POWER OF CYCLE: CYCLE CAN BE FOUND ON ALL TIME FRAMES WITH PATTERNS THAT REPEAT

Hjsorot7 published on TradingView.com, Apr 24, 2022 04:49 UTC

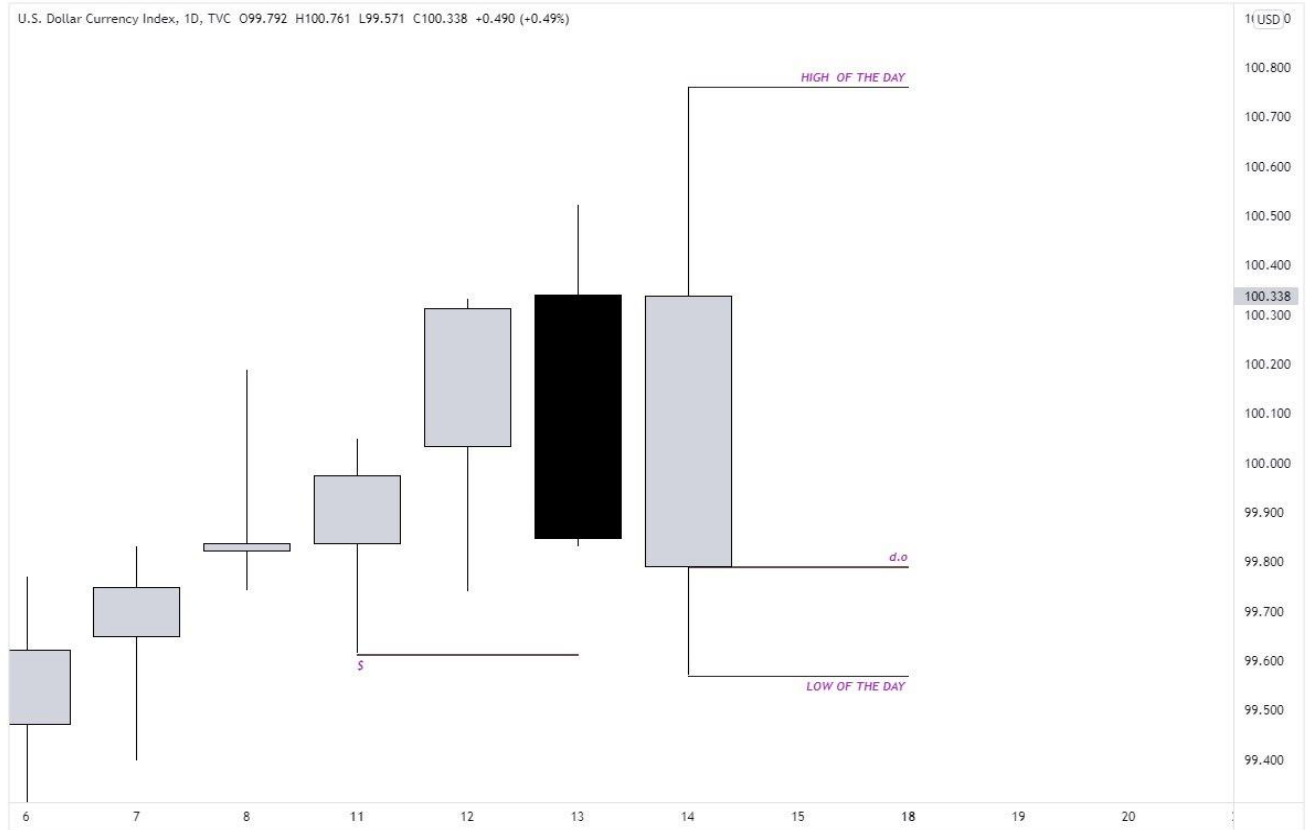

<https://www.tradingview.com/x/Dt3bfYjF/>

- ASIA RANGE TO BUILD UP LIQUIDITY
- LONDON PRICE GRAB FRANKFURT LOW +PDL(so Maybe this Low is the low of the Day)
- Ny Trap On they Ny open price CREATE a trap A fake momentum shift (Bos) u Will understand the fake Bos (I explain the fake Bos on the Algo structure part) so that supply zone is just a trap A Lot of smart money kids lose money on that trap

Hjsorot7 published on TradingView.com, Apr 24, 2022 05:41 UTC

D.O(DAILY OPENing Price) BELOW THE D.O

the discount and above the d.o the premium

Build up>INDUCE>Trap >SHIFT

Low of the day form on London session

Ny Complete what London wanted to do

U can see A Nyo Trap then continuation to CREATE the high of the Day

<https://www.tradingview.com/x/clsVqrBn>

ALS:ASIA LOW SWEEP

FFH: FRANKFURT HIGH

FRANKFURT ALWAYS CREATE A FAKE
MOVES SO THAT FFH IS JUST LIQUIDITY

AND PRICE GRAB THE FFL LIQUIDITY AND THE ASia Low On THE LONDON OPEN

Money ENTER To The Market in London/New York High volatility Times ...and 90%Of The Times London
and Newyork forms The High and Low of The Day ...

HOD:HIGH OF THE DAY

LOD:LOW OF THE DAY

The High and Low of Asia is A MEDIUM LIQUIDITY and The middle of Asia is A minor Liquidity

After it takes Asia Low price goes in the **opposite direction to take Asia High**

Hjsorot7 published on TradingView.com, Apr 21, 2022 14:45 UTC

TradingView

<https://www.tradingview.com/x/lhaF39Qb/>

Focus

Once You identified where You are from Cycle

<https://www.tradingview.com/x/m5f6fIXQ>

Cycle :BUILD UP>AGGRESSIVE GRAB>REVERS

Hjsorot7 published on TradingView.com, Apr 24, 2022 20:20 UTC

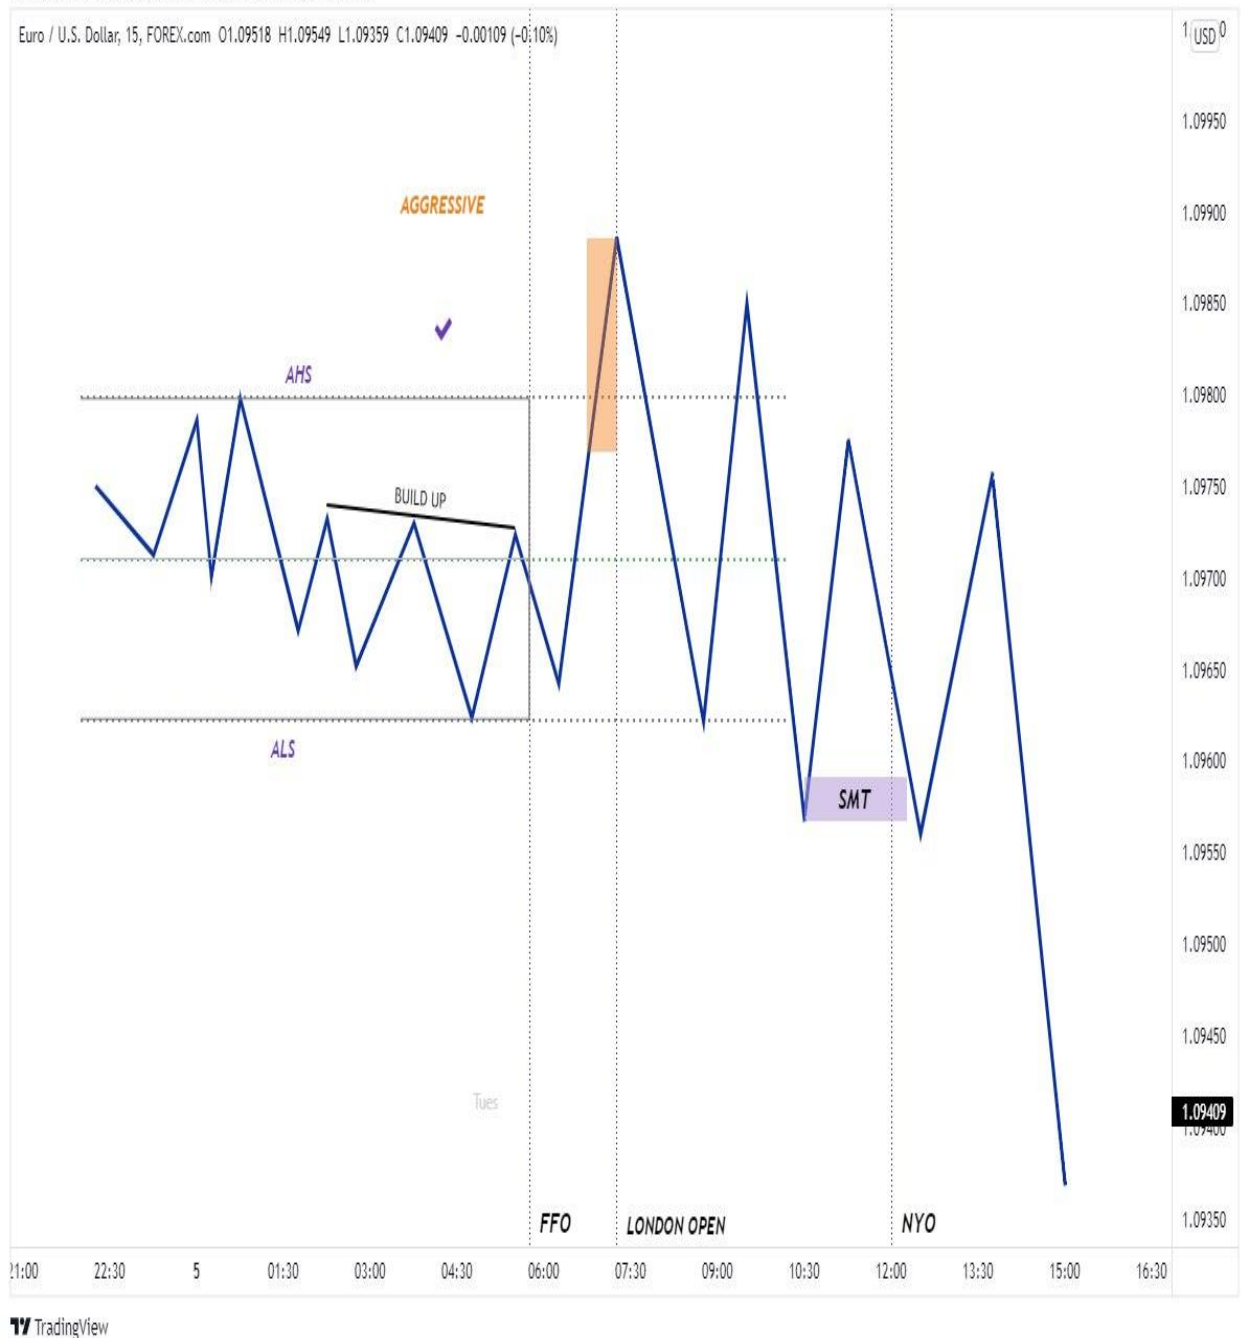

TradingView

Case1:

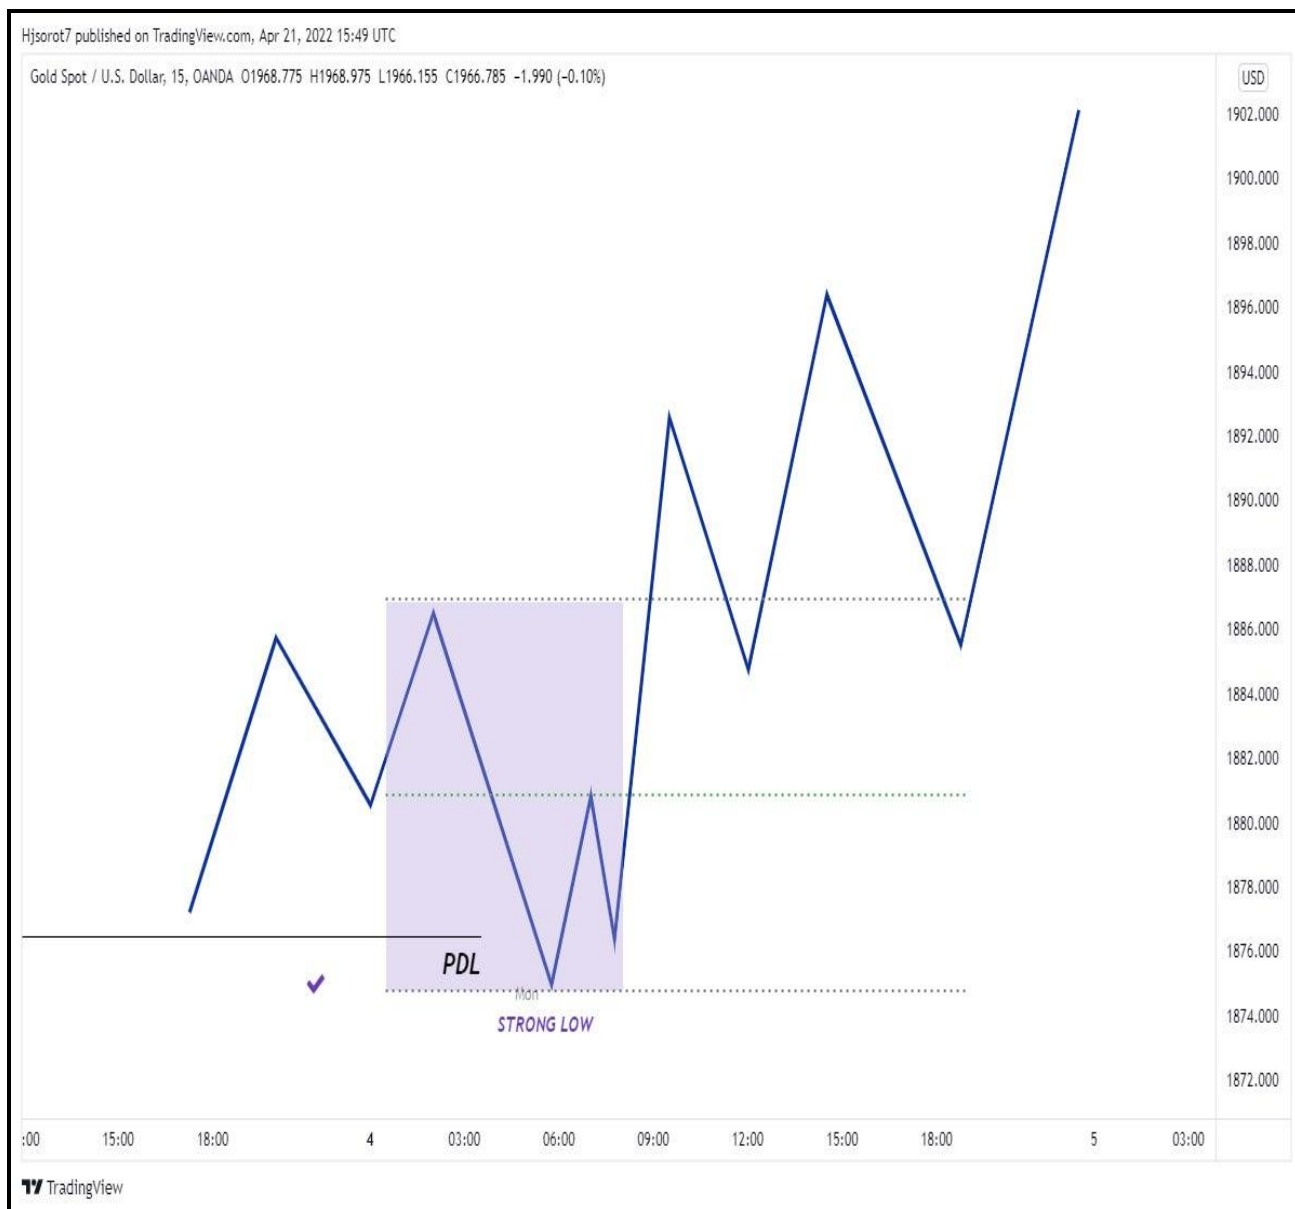

Hjsorot7 published on TradingView.com, Apr 21, 2022 15:30 UTC

<https://www.tradingview.com/x/NwD8Wh5F>

ON ASIA PRICE BUILD UP LIQUIDITY In FRANKFURT FALSE MOVES.ON THE LONDON OPEN AGGRESSIVE MOVE TAKE ALL THE LIQUIDITY THEN GO On THE OPPOSITE DIRECTION
Very simple

Case 2:

<https://www.tradingview.com/x/9ZUfZICV/>

On This Case we Have A strong Low on Asia ...Strong Low mean the Low Grab Liquidity and Break structure The liquidity and her we have Asia Low Grab a very important Liquidity "PREVIOUS DAILY Low so on this situation The Orders Enter On Asia And Algo it will protect this order

Notes: This Case happens On The Reversal
(HTF Reversal) OR when The trend it's so strong

Hjsorot7 published on TradingView.com, Apr 21, 2022 16:12 UTC

TradingView

<https://www.tradingview.com/x/WGYrul0m/>

HTF Direction Bearish.

When u don't see A Liquidity build up on The Ltf Go To The HTF AND FOUND WHERE THE PRICE BUILD UP LIQUIDITY

BeFore

<https://www.tradingview.com/x/NCELwC9G/>

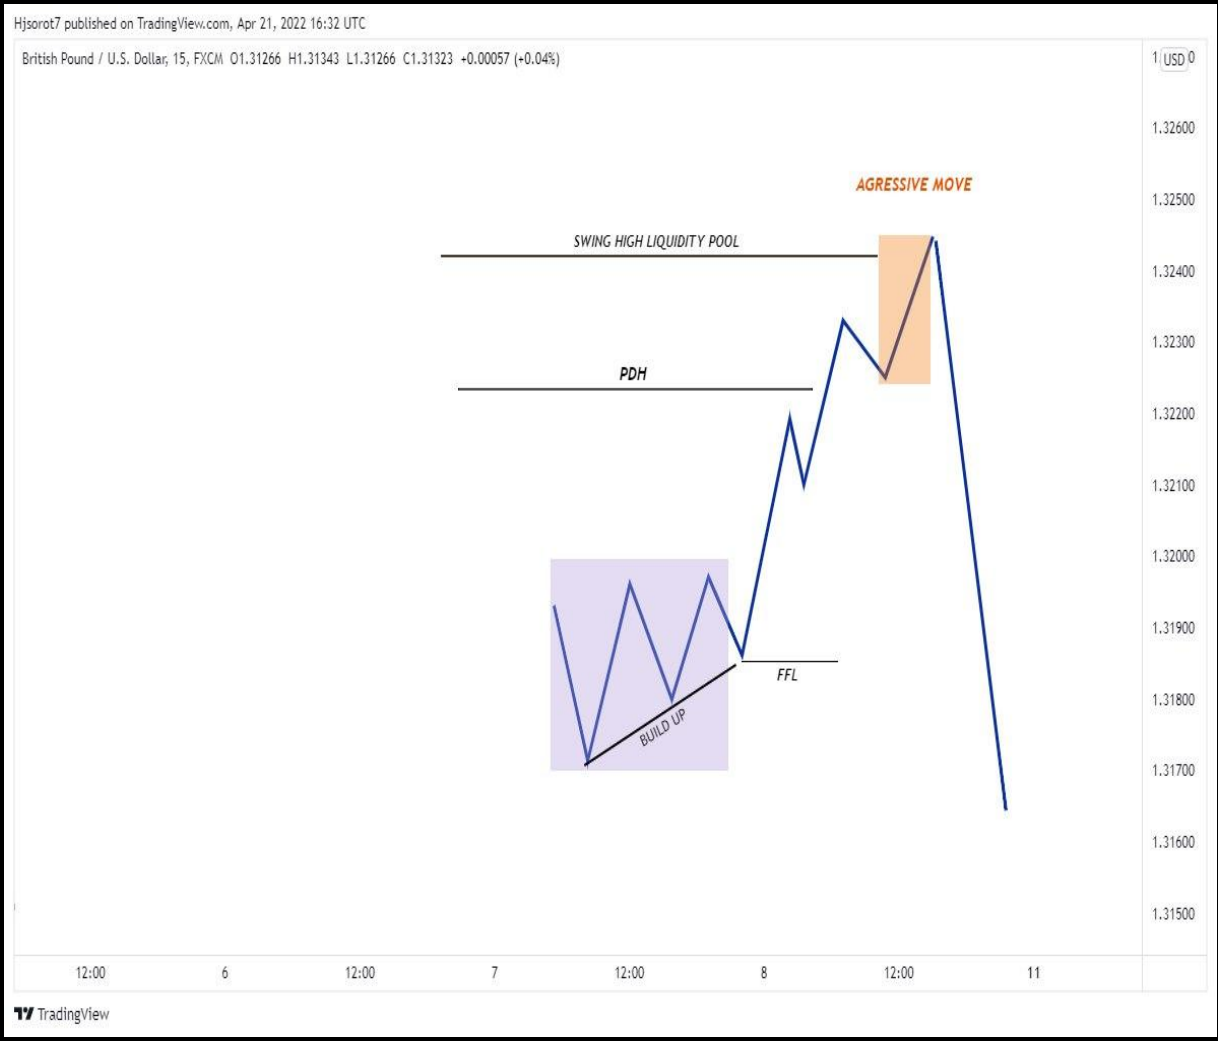

After

<https://www.tradingview.com/x/NCELwC9G>

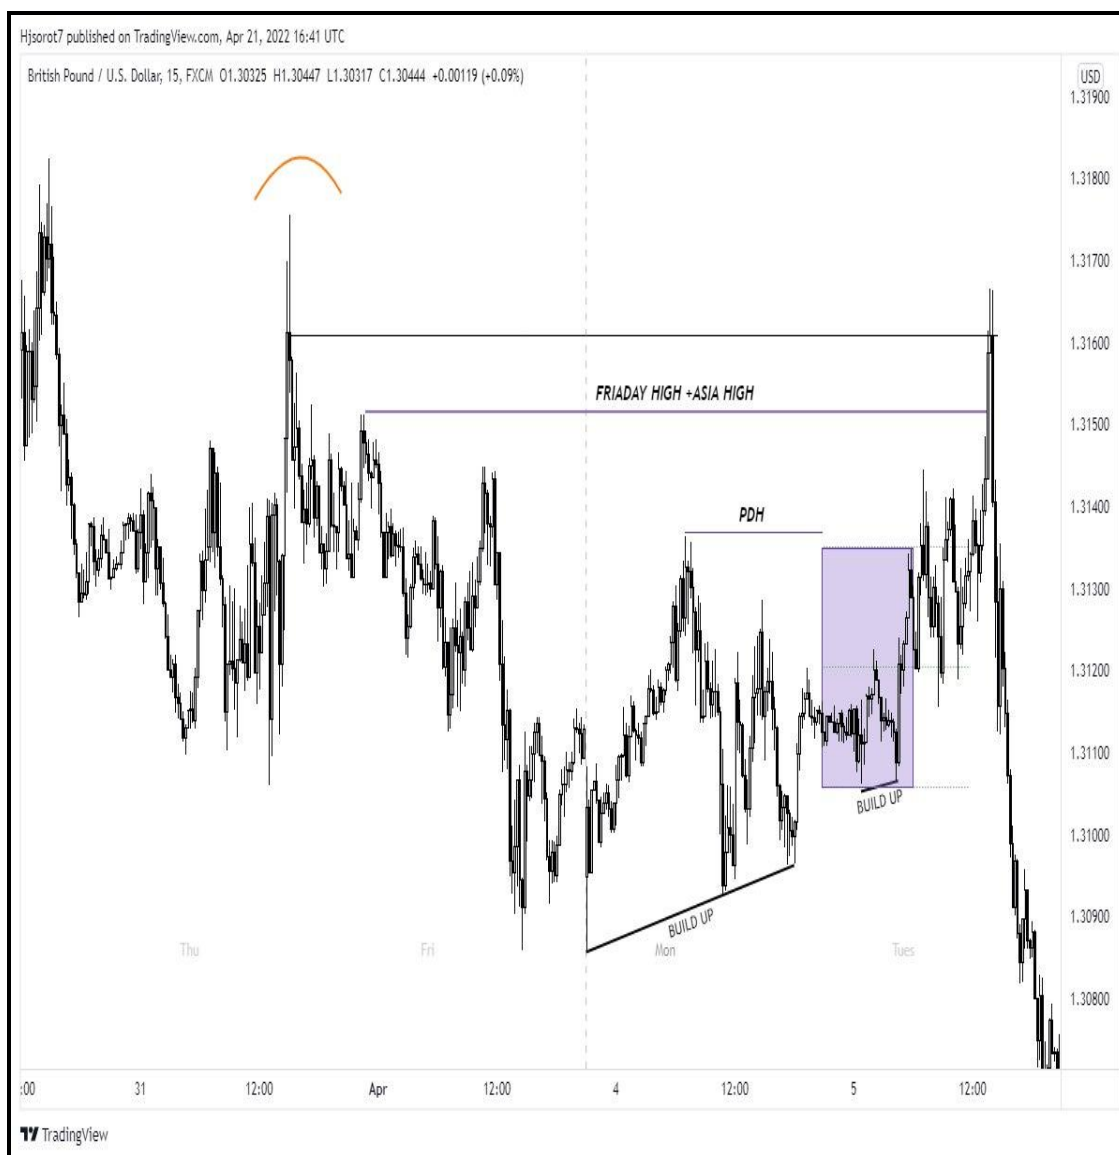

Case 3:

Price Build Up >Trap>

<https://www.tradingview.com/x/9BMawXjb/>

FOLLOW LIQUIDITY = FOLLOW THE ALGO

- **90MIN CYCLE**

We start accounting from (00:00) Mid night Ny time .every 90min min There is a possibility that the price will make a big move...so eTvery 90 min we will define the opening price To KNOW WHERE IS HE FAKE MOVE

- **HTF LIQUIDITY CYCLE**

We have to know that every 3 to 5 days the price changes direction, but why because **INTERNAL BANK PRICE DELIVERY ALGORITHM** is always looking for data for the last 3 or 5 days or the last 3 or 5 weeks.. or months or years and from here they understand that **ALGO** is divided into types **Long terme Algo** and **short terme Algo**

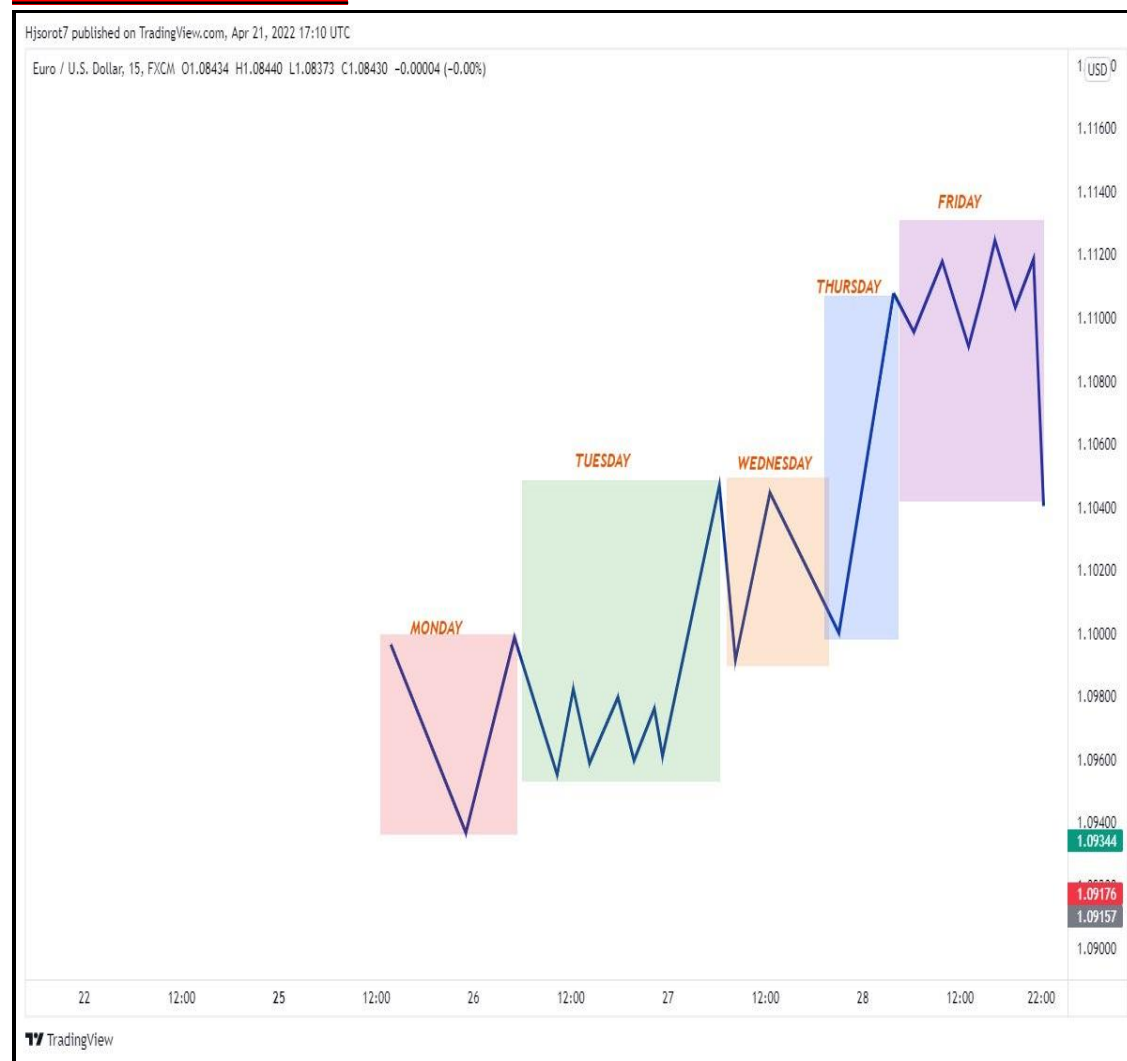

Internal Bank : He is the one who stores the data..for all the places that have liquidity

Data = Liquidity

☐ Let's Star with The **weekly Cycle:**

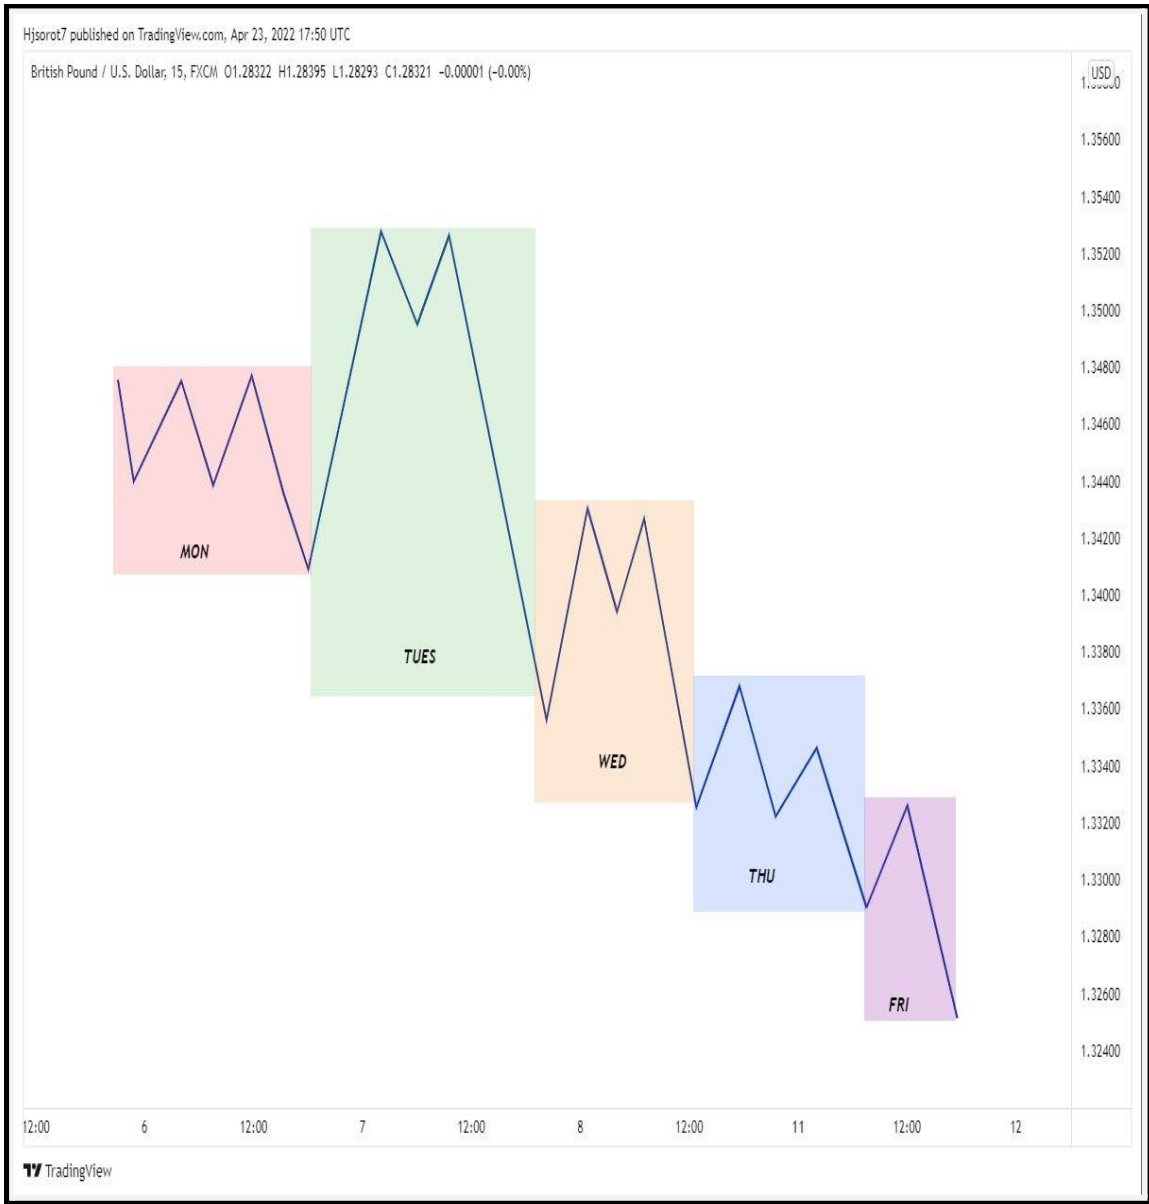

Case 1: BULLISH WEEK

- ☐ Monday Manipulation Move to Grab Liquidity A LOT OF TIMES THE HIGH OR THE LOW OF THE WEEK FORM ON MONDAY
- ☐ Tuesday PRICE ACCUMULATE MORE ORDER'S AND CONTINUATION..
- ☐ Wednesday REACCUMULATION AND SOME TIMES REVERSAL (BASE ON HTF STRUCTURE)
- ☐ Thursday completes the movement that occurred on Wednesday
- ☐ Friday DISTRIBUTION

Case 2:

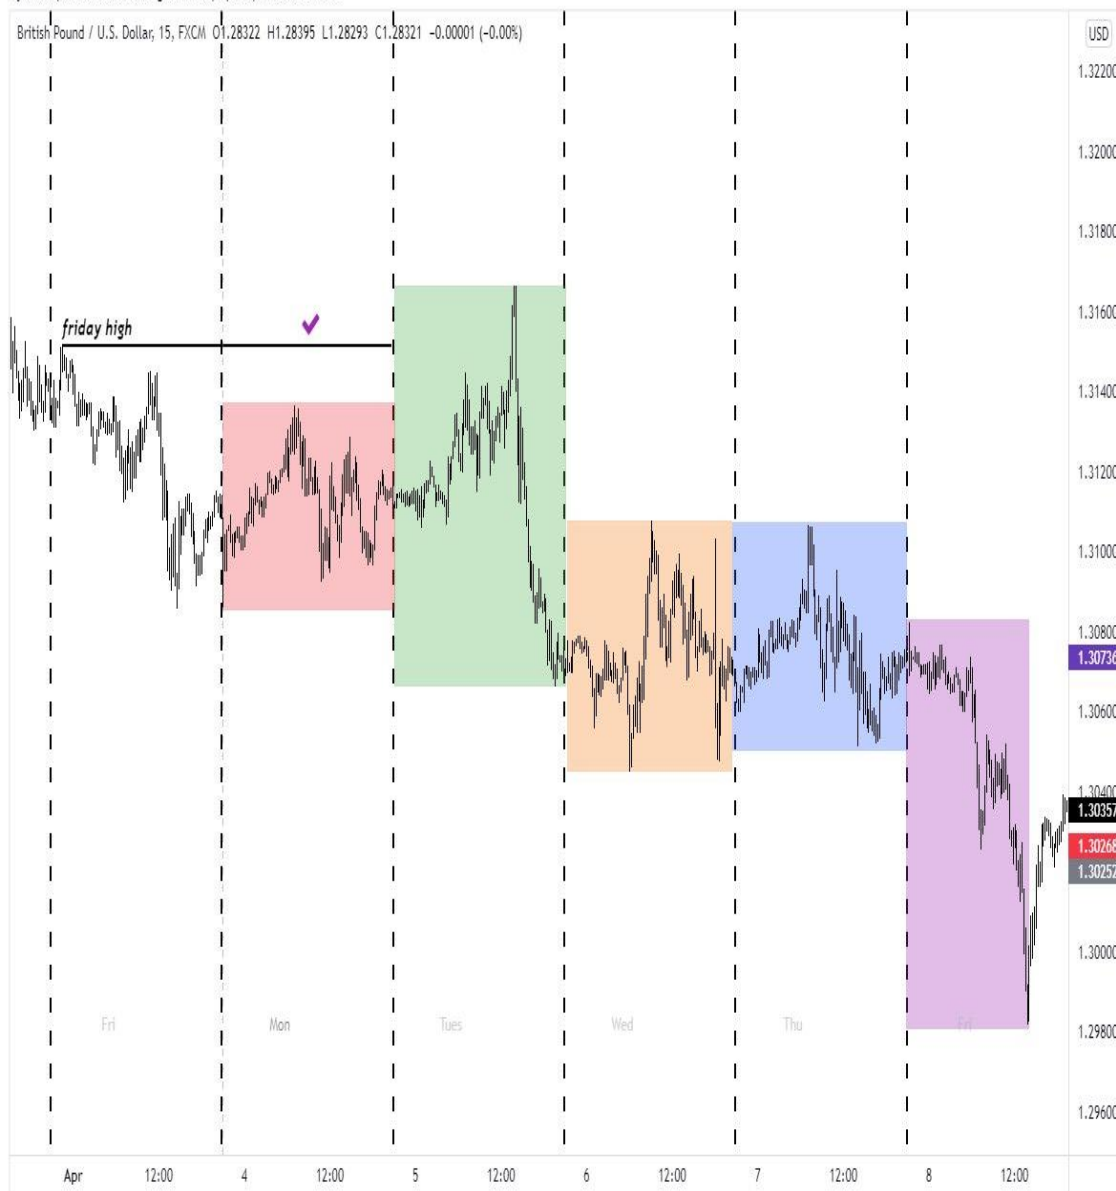

<https://www.tradingview.com/x/LXoOpMBC/>

Hjsort7 published on TradingView.com, Apr 23, 2022 18:03 UTC

TV TradingView

<https://www.tradingview.com/x/5DxsNFOR/>

(engineering liquidity) on Monday why price doing that because the Algo need more liquidity (more orders entering to the market so Monday Accumulation

- ☐ **Tuesday manipulation price Grab Monday high +Friday High So the manipulation move happen on Tuesday**
- ☐ **Wednesday+Thursday continuation Price just CREATE a Range to stack more orders**
- ☐ **Friday continuation /Low of The week**

- **HTF CYCLE**

You have to know that there are two types of algo in the algo market in the short term and algo in the long term. In the long term for algo after he takes important liquidity and SETS There orders his targets are either short or long this depends on the amount of liquidity that he took .

After price Grab a major Liquidity And Break Pdh (MOMENTUM SHIFT)

+Ms :bullish momentum shift

We go to the start of the month (Feb)

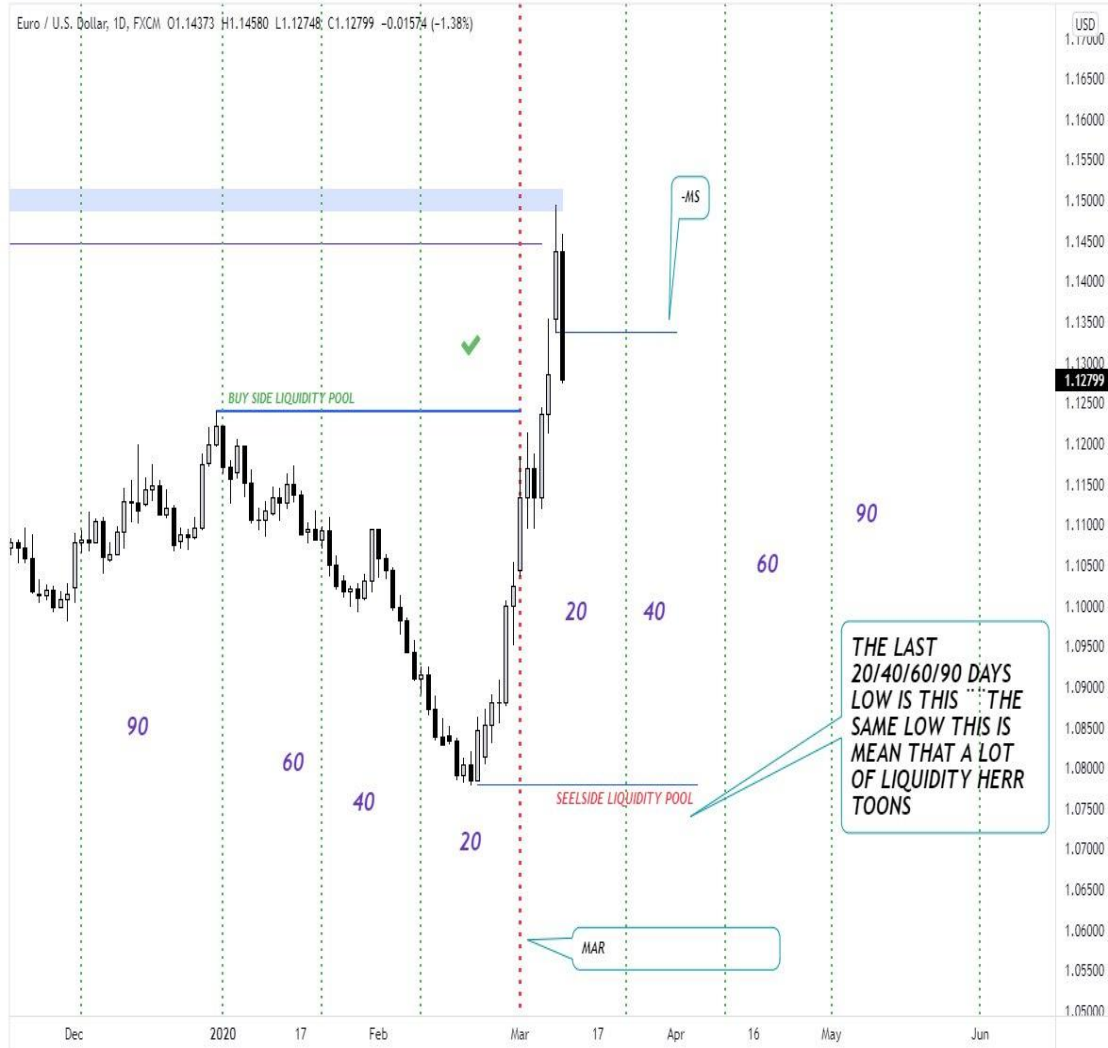

And we see The Last 20/40/60/90Days

And we define The highest high on the last 20 day and the highest high on the last 40d...This is the Algorithm Target ..

After 20 Days from The Trap There is a great possibility that the price will reverse ... not necessarily after 20 days, but most of the time after 20 days, maybe a little less, maybe a little more, BUT the average is 20 days

Hjsorot7 published on TradingView.com, Apr 24, 2022 18:24 UTC

TradingView

<https://www.tradingview.com/x/6IBJRNlw/>

Always for Confirmation HER We have a bearish momentum shift

Hjsorot7 published on TradingView.com, Apr 24, 2022 18:31 UTC

TV TradingView

<https://www.tradingview.com/x/AosyaFTA/>

Use that the Reversal has not happened after 20 days because it is not necessary (the price moves after taking important liquidity) CONFLUENCE HER BEARISH MOMENTUM SHIFT

Hjsorot7 published on TradingView.com, Apr 24, 2022 18:40 UTC

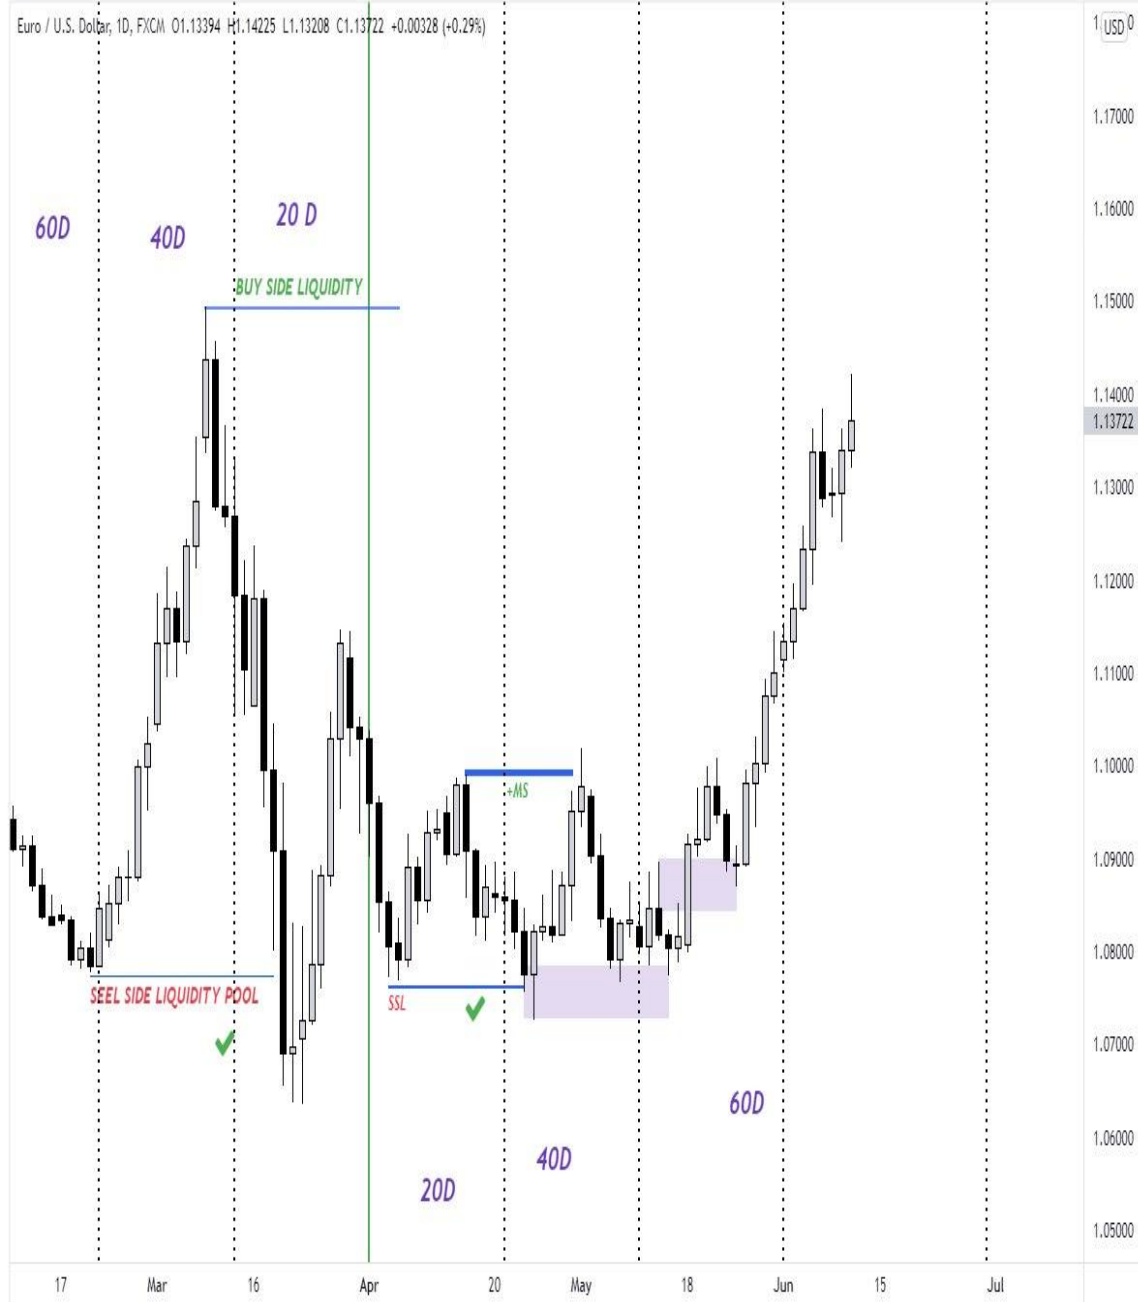

TradingView

<https://www.tradingview.com/x/5Wh9X9Th/>

**Right Now The Trap and The target Hits on the same month The
This will make the price build liquidity ... in this case go to the HTF see where the liquidity price is
built and where that in**

• ALGO MARKET STRUCTURE

Market Structure

It is the map that will help to understand and predict the next movement And it will make you understand where you are, are you in correction or Continuation SO THE HTF MARKET STRUCTURE SO important

Hjsorot7 published on TradingView.com, Apr 24, 2022 21:41 UTC

<https://www.tradingview.com/x/iOQ9V0si/>

Hjsorot7 published on TradingView.com, Apr 24, 2022 21:50 UTC

<https://www.tradingview.com/x/4RmPVay>

Alright structure is not That easy actually when You Will See A Structure Like this It means There is no liquidity (the price has not taken much liquidity. If there is no liquidity the price builds up liquidity that it

sees across Ranges and the price manipulation is very large) enough and this makes the price rise slowly and makes reading the structure easy for you but

In the same Time a Trend Like this **ENGINEER LIQUIDITY** FOR THE FUTURE

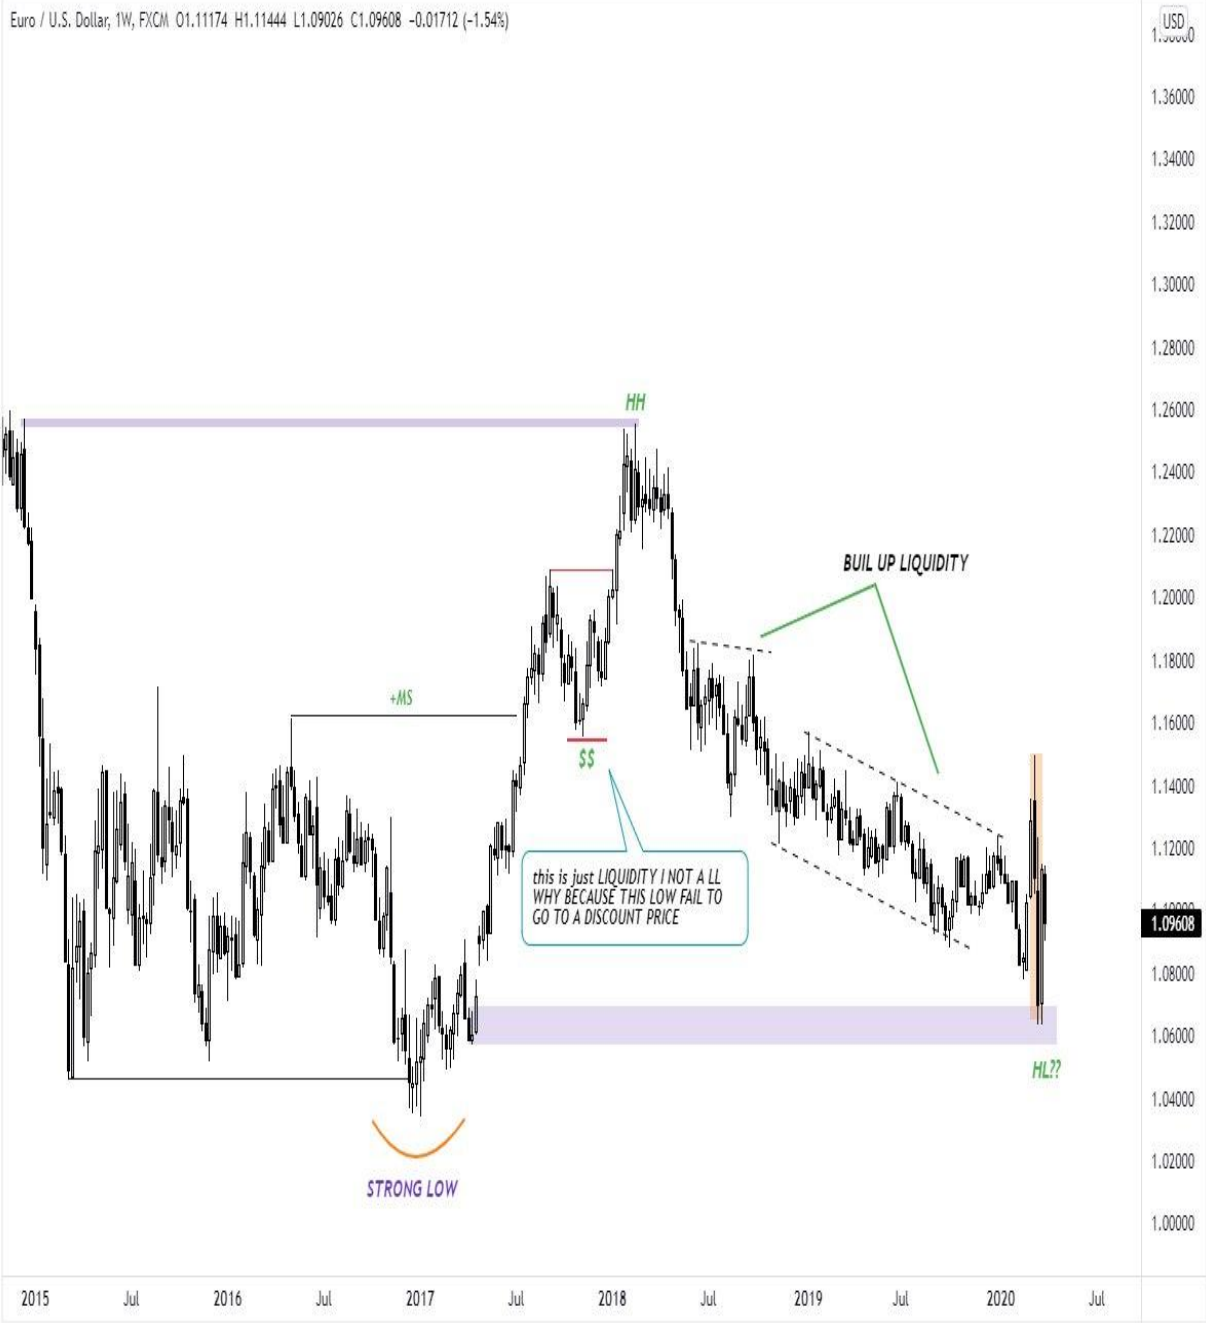

It builds liquidity to seek refuge in the future and wipe it all

<https://www.tradingview.com/x/EBw06JDN/>

● Market Maker Pattern

You have to know that 80% of the movements made by a price are in the form of RANGES. Why The Price Makes Ranges . because it is the best way to manipulate prices and Build Liquidity

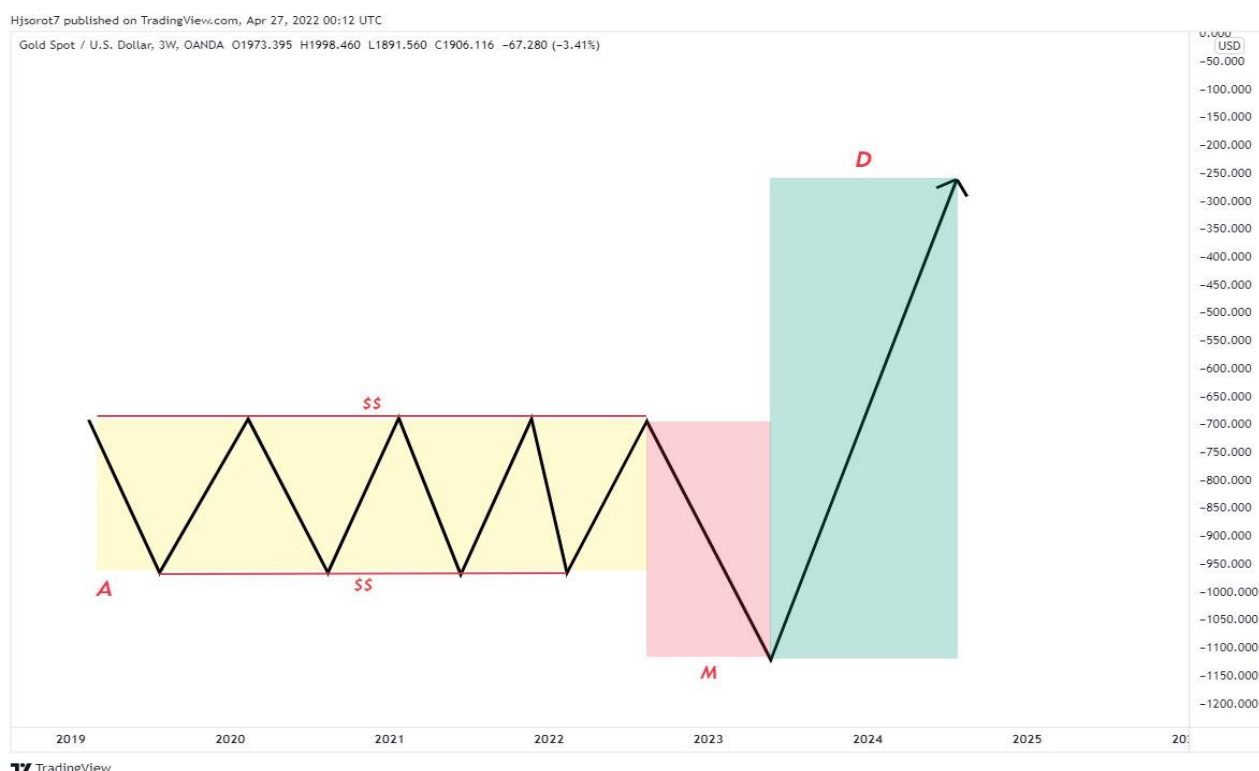

, I will share with you the most important models that the price makes

1. AMD

AMD=ACCUMULATION_manipulation

DISTRIBUTION

ACCUMULATION BUILD UP LIQUIDITY

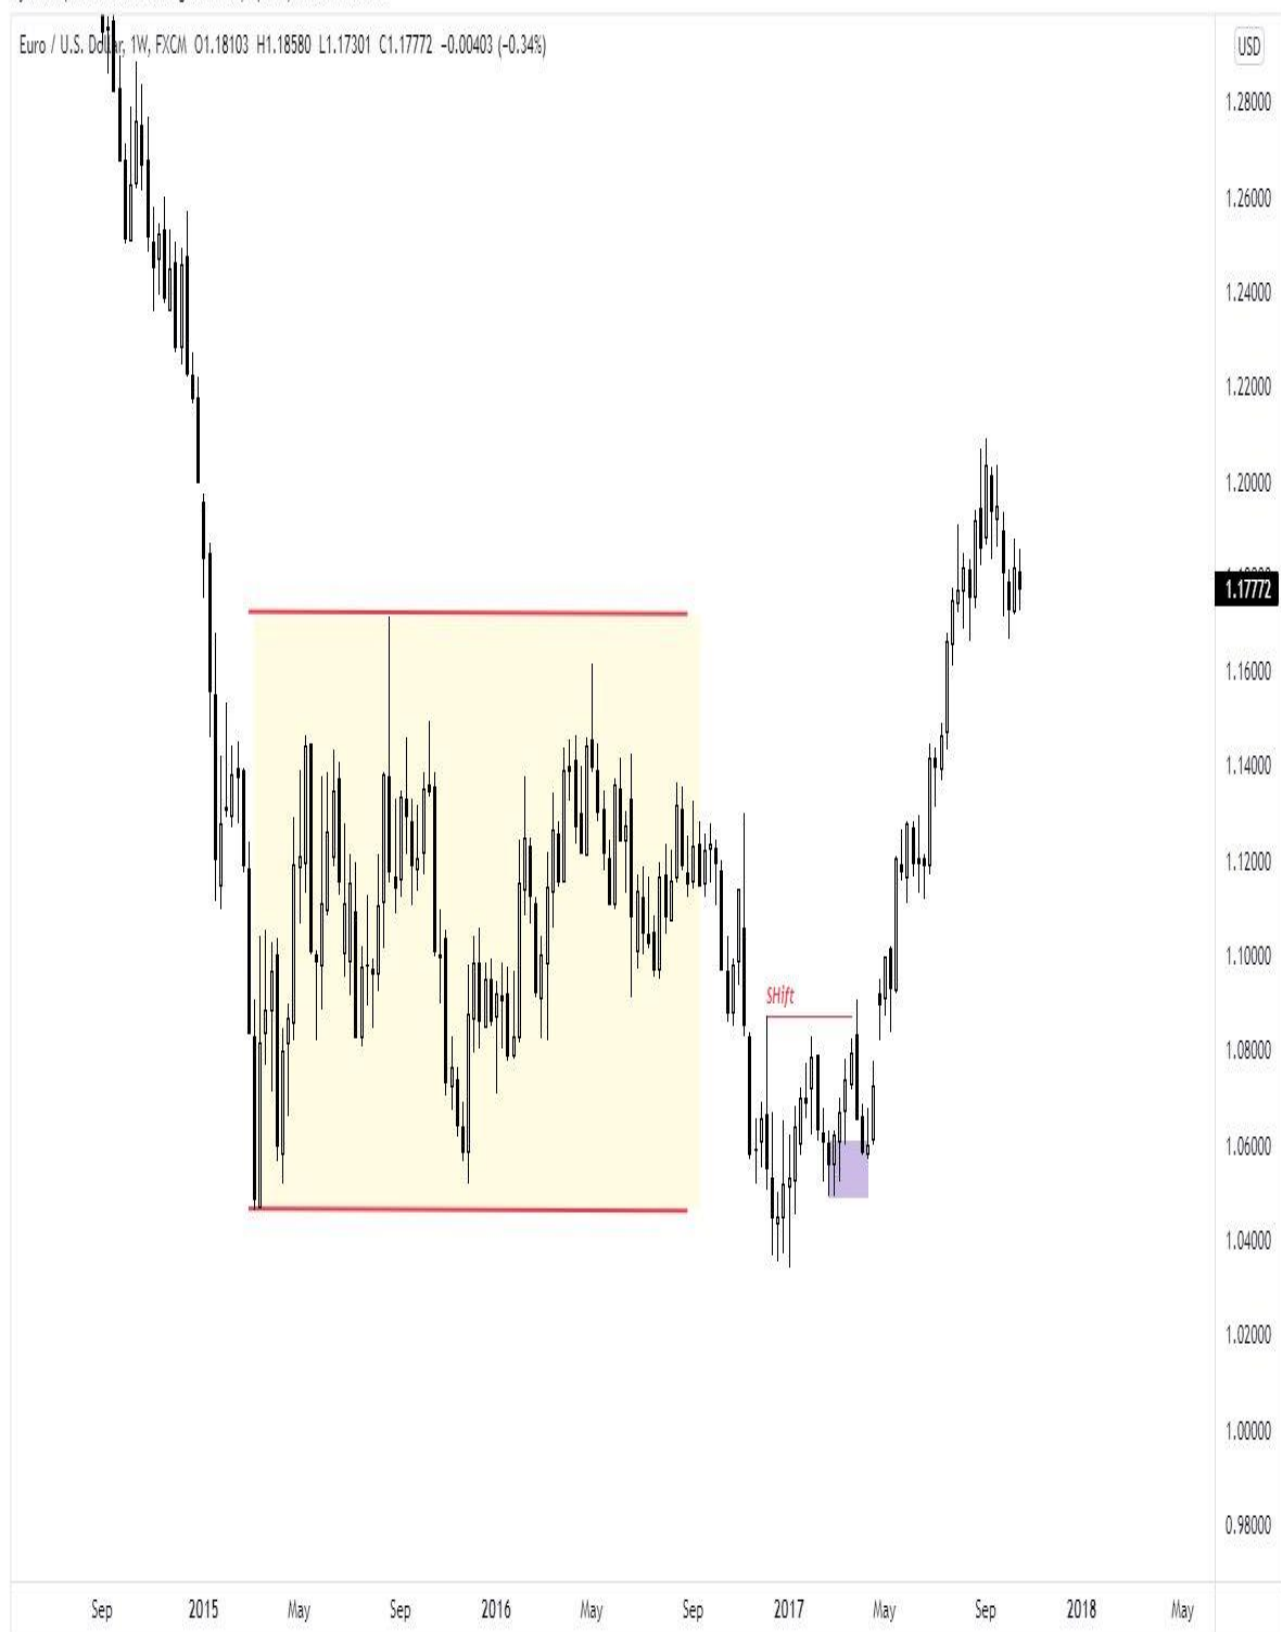

FAKE MOVE (MANIPULATION MOVE TO INDUCE RETAIL TRADERS IN THE WRONG SIDE OF THE MARKET)

DISTRIBUTION=THE REAL MOVE .

This is a simple model, and it will be easy for you to understand. This is a model. If you understand it, you can take a lot of trades daily because it repeats every day, every week, every month. For me, I consider it the most powerful model.

● **2.FAIR VALUE GAP/INEFFICIENCY**

Inefficient Pricing means the market has to stay balanced, for every buy there has to be a SELL .
When we see only buying or pure selling this creates voids in price that the Central banking algorithm
has to fill voids to make price-efficient again

This DescriBed as a Void Of Market Liquidity Or **Liquidity VOID**

Hjsorot7 published on TradingView.com, Apr 29, 2022 02:31 UTC

Euro / U.S. Dollar, 3h, FOREX.com O1.13058 H1.13144 L1.12962 C1.12975 -0.00083 (-0.07%)

<https://www.tradingview.com/x/DuQmIs1J/>

Hjsorot7 published on TradingView.com, Apr 29, 2022 02:38 UTC

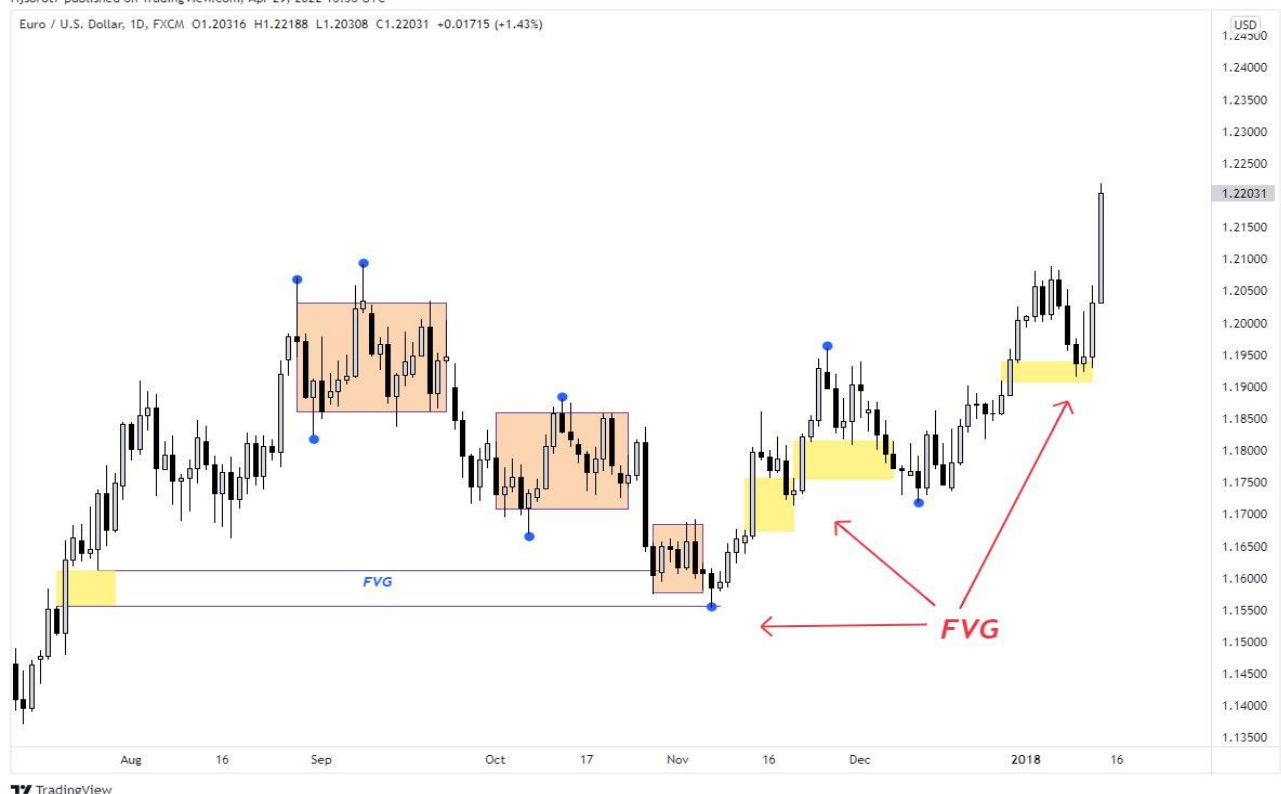

<https://www.tradingview.com/x/y74kR06q/>

The HTF LIQUIDITY VOID IS MORE IMPORTANT THAN THE LTF LIQUIDITY VOID
(UNDERSTAND THE LIQUIDITY VOID JUST LIKE U UNDERSTAND LIQUIDITY)
SO ALSO NEED TO FILL THE VOID

Hjsorot7 published on TradingView.com, Apr 29, 2022 16:36 UTC

Euro / U.S. Dollar, 1D, FXCM O1.20316 H1.22188 L1.20308 C1.22031 -0.01715 (+1.43%)

<https://www.tradingview.com/x/WHebf2jq/>

WHEN U SEE A **FVG FULL FILLED** There is a high probability that the price will reverse

This depends on how important is This FVG (HTFFVG > LTF FVG)

(Use Multi Time frame To SEE ALL The Fvg)

Hjsorot7 published on TradingView.com, Apr 30, 2022 00:13 UTC

TradingView

<https://www.tradingview.com/x/vuqLfkHs/>

<https://www.tradingview.com/x/1AJEpLgz/>

Remember FVG IS JUST A LIQUIDITY VOID. EXACTLY LIKE LIQUIDITY (FILL > REVERSE)

- **THE DIFFERENCE BETWEEN EFFICIENT PRICE ACTION AND INEFFICIENT PRICE ACTION**
